## Winter 2010 Meeting Schedule

FEBRUARY 5

*"Darwin's Dilemma – The Mystery of the Cambrian Fossil Record"*

This new intelligent design video examines one of the great "mysteries" of science, the Cambrian explosion, when animals first appeared on earth, fully formed, without evidence of any evolutionary ancestors.

MARCH 19

*"Fossils – the Hard Evidence"*

Dr. Gerald Lenner discusses the fossil record of animals and "early man". The fossil record is claimed to show a history of evolution, but does it really?
